MEMORANDUM FOR: Director of Logistics

STAT FROM:

Chief, Real Estate and Construction
Division, OL

SUBJECT: Alteration of the Printing and Photography Building, Headquarters

REFERENCE: NFAC 1950-81 fm DD/NFAC to D/L, dtd
6 April 81, subject: Map Library Space
Requirements

1. The referent memorandum is in response to Mr. Hugel's request to determine the minimum on-site holdings required by the OGSF Map Library. The determination is that 10,000 square feet would be the minimum on-site requirement and that the renovation of the unexcavated portion of the Printing and Photography Building would provide that space.

2. The Space Steering Committee has indicated that a project should be requested to accomplish the renovation using Fiscal Year 1982 funds for design and construction. To accomplish this, it will be necessary to contract for a feasibility study in advance of FY-82. The purpose of the feasibility study would be to provide a thorough analysis of the various space and construction options and their estimated costs. The study would also provide a firm scope of work from which to begin the FY-82 design and construction effort. It is estimated that the feasibility study would cost in the range of from \$18,000 to \$22,000.

3. It is requested that approval be given to proceed with the Architect-Engineer selection and negotiation process for the feasibility study for a cost not to exceed \$22,000.
